- Accessed from our website – free of charge
- Single hard copies – free of charge
- As the Freedom of Information Act applies to the provision of information, a request for multiple hard copies does not fall within the provisions of the Act and will attract a charge for retrieval, photocopying and postage. We will inform you of the cost of these charges that will have to be paid in advance.
- E-mail will be free of charge.

Your Rights to Information

- The Freedom of Information Act 2000 is designed to promote openness and accountability amongst all organisations that receive public money.
- Like all NHS contractors, since 1 January 2005 there has been a FOI obligation on optical practices to respond to requests about the NHS related information that they hold, and a right of access to that information has been established in law.
- These rights are subject to exemptions (see below) that have to be taken into consideration before releasing information.
- In addition to accessing the information identified in this guide, you are entitled to request information about our NHS services under the NHS Openness Code 1995.

- Under the Data Protection Act 1998, you are also entitled to access your clinical records or any other personal information held about you and you can contact our practice where your records are held to do this.
